MINISTERS PLAN COMMUNITY DAY

Services Sunday Afternoon and Night at Park Will Be in Interest of Reconstruction Work.

BIG WORK AHEAD OF CHURCH

Meetings Here Part of a Statewide Campaign—Influence of The Christian Churches Needed.

An invitation to the people of Jackson county to attend the community meetings to be held at Shields park next Sunday afternoon and night, is extended by the City Ministerial Association. The Seymour Concert Band will give an hour's program beginning at 2:30 o'clock. A song service led by Mr. Jeffers, a religious worker at Camp Taylor, Ky., will be held from 3:30 to 4 o'clock and an address will be delivered by Dr. Putnam of Butler College at 4 o'clock. He will deal with modern problems and a large audience is expected.

In the evening the service will open at 8 o'clock with community singing. Mr. Jeffers in charge. At 8:30 o'clock the Rev. Thomas A. Grafton, pastor of the Third Christian church, Indianapolis, will give an address. He is the pastor of a church with 1,500 members and has been with the church for seven years. He is a strong preacher and keenly alive to the task of the church. He will give a stirring address.

A statement issued by the Ministerial Association relative to these meetings says:

"These programs should have very large hearings. The challenge is upon the church—will the churches of America meet the challenge? If so, we shall as a people make great strides in the next few years in rebuilding the world. If the church does not meet this challenge the work of our brave and noble sons in the great war will have been in vain. Democracy will not be assured. But the church will not prove false. The Christian forces in America are thoroughly alive to the needs of the hour and will meet this new challenge of a new day.

"These meetings are being held for the common good of the community and to stimulate the religious forces of the community to greater activity in helping to rebuild the world. It becomes increasingly clear with each passing day that the task of the churches in America is a big one; that we cannot save the world for democracy unless the moral and spiritual ideals of Christianity are emphasized in every relation of life. Thus throughout America the call is being sounded by the churches for co-operation and zeal that the world may be rebuilt by christian forces. These meetings next Sunday afternoon are a part of the work that is being attempted throughout the state to stimulate the church to large service. These programs should challenge the co-operation of the entire community. The community at large is urged to attend these important rebuilding meetings on next Sunday. We especially invite the soldiers of this great war to meet with us."

CLARK B. DAVIS ENJOYING "SCHOOL" AT WINONA LAKE

Chamber of Commerce Secretary Attending Important Meeting—Interest is Good.

Clark B. Davis, secretary of the chamber of commerce, who is attending a meeting of commercial secretaries of Indiana at Winona Lake, writes that he is thoroughly enjoying the trip.

"This is sure some place for rest and entertainment," Mr. Davis writes. "The chautauqua is on and what I have seen was good. Our secretaries' school is not as large as expected, but there are many interesting talks and all are getting good from it. We have visiting secretaries from five states. The session lasts all week."

At a recent meeting of the chamber of commerce, Mr. Davis was instructed to attend this meeting and make a full report to the membership upon his return.

EXAMINER ISSUES LETTER RELATIVE TO ROAD WORK

Eschbach Points Out That Inspectors Must Not be Paid Twice—Payment to Contractors.

In a second letter issued by Jesse Eschbach, examiner of the state board of accounts, tells county officials that road inspectors must not be paid twice by receiving additional compensation from material men. This practice is a violation of the law and criminal in its nature, he writes.

He also calls attention to the discovery that in some counties contractors are paid more than eighty percent of the amount of work completed before the contracts are accepted. Mr. Eschbach said that several instances had been called to his attention by field examiners where counties had paid contractors for material on hand and that later the contractor failed to complete the road, being let out of the contract by the 1919 contractors' relief law. The counties that violated the law in making the payments now have this material on their hands and much of it is in a depreciated condition, Mr. Eschbach said.

GENERAL ACTIVITIES FORESEEN IN FALL

Permanent Improvements Costing Thousands of Dollars To Be Started in Near Future.

ROAD WORK IN FOREGROUND

Considerable Remodeling and Repairing, Delayed During War, in Progress in This City.

Seymour, which is now enjoying conditions of healthy prosperity, is on the threshold of a period of unusual activity which may approach the proportions of a well defined building and improvement boom during the fall. Contracts for thousands of dollars worth of permanent improvements to be completed before the first of next year have already been awarded and additional contracts of almost equal size are pending and it is expected that many of these will be let during the next few weeks. The indications point to an unusual demand for labor of all kind with the payment of large sums for materials and wages. The circulation of this additional money can only result in brisk trade conditions and local people who are looking ahead are confident that the volume of business here during the early fall and winter months will be exceptionally large.

Road construction work is in the foreground. The commissioners of Jackson county have awarded a contract for the paving with concrete of the Seymour-Dudleytown road, and the state highway commission has awarded a contract for the improvement of the High street road at approximately \$60,000. In addition the state commission intends to improve the Jonesville road for a distance of six and one-half miles north of this city at a cost of probably \$200,000. This contract is to be awarded during the early part of

BASEBALL GAME SCHEDULED FOR SUNDAY, JULY 27

Bedford Champs Will Play the Seymour Red Sox in This City—Local Team Re-organized.

The Seymour Red Sox baseball club has been reorganized and a game has been scheduled for Sunday in this city on the lot southwest of the Ahlbrand Carriage factory, with the Bedford Champs. The Bedford team is recognized as being one of the fastest amateur teams in southern Indiana.

The Red Sox club has a strong lineup with Ben Taylor, of Bedford, as pitcher, and "Frosty" Hermann, of this city, catcher. Taylor is a former leaguer and is one of the best amateur twirlers in the state. Several other fast players have been secured by the new management to strengthen the team.

Fans in this city have been anxious for a baseball club throughout the season and the new team will no doubt receive good support considering the fact that it is offering a strong line-up and some good games are assured. The game is called for 2:30 and an admission of 25c will be charged.

STATE LEGISLATURE MAY CONVENE ON AUGUST 26

Woman Suffrage Resolution and Appropriation Measures To Be Considered.

Indianapolis, July 24—Legislators are expected to convene here in special session August 26, according to latest information from the office of Governor Goodrich. It is understood the governor respected the desire of a majority of the assemblymen to call the special session in August rather than September. The session will consider the woman suffrage amendment to the federal constitution and the appropriation of money for the state institutions.

VERNON PEOPLE ARE DISSATISFIED

Anti Removalists Are Inclined to Believe There Was Fraud in Jennings County Election.

HAVE EMPLOYED COUNCIL

North Vernon People Joyous Over Outcome and Believe Long Fight to be Ended.

The election held in Jennings county to decide the location of the county court house which was held Tuesday and resulted in favor of North Vernon, does not seem to have ended the long drawn out fight that has been waged in that county for the last six years. According to reports that have been received here the Vernon faction, at which place the court house is now situated, are inclined to believe that some underhanded methods were used by the removalists in swinging the election and some legal steps will be taken at once.

Judge John M. Lewis, of this city, has been retained by the taxpayers favoring the Vernon site to represent them in any legal steps that may be taken. The Vernon people are inclined to believe that there was some fraud in the outcome of the election and many are willing to spend money, it is said, to conduct an investigation.

One of the objections that has been made by Vernon residents is that the Vernon faction was not given the proper representation on the different election boards throughout the county. Some of the persons are also inclined to believe that more votes were cast at the election than there are voters in the county. Withstanding the fact that Vernon is laying plans to block the removal of the courthouse, North Vernon people are joyous over the outcome of the election and prominent residents there have no fear but what the long drawn out fight is at an end and within a short time the work of building a new court house at that place will be started preparatory to moving the county seat there.

HUNGARIAN REDS ADVANCE ALONG EAST BANK OF PIEZA

Communists' Army Continues Offensive Against Roumanians—Bela Kun in Command.

Vienna, July 24—The Hungarian Reds, continuing their offensive against the Roumanians, were advancing today along the entire line of the east bank of the Pieza river.

Reports received here stated the Red offensive as being directed by Bela Kun. This apparently refutes the report that Bela Kun had been ousted as dictator of the Hungarian communists' government, or indicates that he has returned to power.

The Red forces in their drive had captured several important towns between Budapest and their objectives. They also had seized large quantities of war materials. In their defeat of the Roumanians the Reds crossed the Pieza river at numerous places. It is learned the Reds also intend to attack the Hungarian white army, employing three divisions of infantry and thirty batteries of artillery.

Bela Kun has addressed a note to the peace conference explaining that the Reds were obliged to attack the Roumanians because the latter had disregarded the "will of the entente." The Reds, it was added, desired to force the Roumanians to respect the will of the peace conference.

GIGANTIC OCEAN LINERS WILL BE CONSTRUCTED

U. S. Shipping Board to Build Passenger Ships That Will be Largest Afloat.

By United Press

Washington, July 24—Two gigantic ocean liners swifter and larger than any afloat will be built by the United States shipping board, it was announced today. Each vessel is designed for a speed of thirty knots, making it possible to cross the Atlantic in four days, the board said. They will measure 1,000 feet in length, fifty feet longer than the Leviathan, now the largest vessel afloat. The new liners will have a beam of 100 feet, a gross tonnage of 55,000, a draft of 35 feet, a depth of 74 feet and are each to accommodate 3,000 first class passengers, 800 second cabin and 1,200 steerage.

SENATE ASKS FOR COPY OF TREATY WITH FRANCE

Objection by Robinson, Democrat, Prevents Immediate Action on Lodge's Resolution.

By United Press

Washington, July 24—President Wilson is respectfully requested to lay the proposed Franco-American treaty before the senate, in a resolution offered today by Senator Lodge, Massachusetts. Objection by Senator Robinson, democrat, prevented immediate consideration.

The Lodge resolution pointed out that the treaty had been laid before the French chamber of deputies, had been printed in newspapers in the United States and that article four provided that it should be presented to the senate along with the German treaty.

"THE MINTS OF HELL" FEATURE AT MAJESTIC

Wonderful Program Will be Exhibited Tonight—Picture is Highly Praised.

"The Mints of Hell", the feature picture to be presented at the Majestic theatre this evening promises to be one of the most enjoyable moving picture entertainments presented in this city for some time.

Concerning the picture the Exhibitor's Trade Review, which is authority on the worth of moving pictures, has the following to say: "The picture reaches the pinnacle of scenic beauty. Nothing better has been screened by way of 'snow stuff.' As to its dramatic force it could scarcely be overstated. The locale is eloquent of rousing, out-of-doors action and the story matches the setting for absorbing interest."

"From first to last the story develops in the open. Vast stretches of snow covered wilderness, mountainous trails and glittering valleys form the epic stage upon which the events of the story are played. The scurrying dog teams, picturesquely garbed figures of the tale, mystery of gold strikes and always the lurking perils of the frozen trails are elements of this unusual screen drama."

"William Desmond is in his element in these scenes. His performance in thrashing the villain in the Stag saloon is a wonder for realistic staging and action."

TAFT'S SUGGESTION MAY BE FOLLOWED

Former President Recommends Explanatory Reservation to Treaty of Peace.

MAY RESULT IN COMPROMISE

Because of Taft's Position on League.

His Proposal Carries Considerable Weight.

By United Press

Washington, July 24—Discussion of the possibility that William Howard Taft's suggestion for explanatory reservation to the peace treaty may provide a compromise by which the pact will be ratified was general today in congressional circles. The former president's friends predicted that his program will become the basis of an arrangement acceptable to President Wilson.

This forecast had two promises: First—That Taft next to Wilson has been the most consistent supporter of the league of nations, thus giving his suggestion great weight among administration leaders.

Second—The increasing belief that the president is gradually approaching a mood for acceptance of explanations or interpretations so as not to endanger ratification of the treaty.

Al of the president's republican callers, including those who saw him yesterday, declared they carried away the distinct impression that, while he is not encouraging the demand for reservations, he will not seriously object to mere explanations or interpretations.

There was some disposition to believe, however, that Taft's program will not be acceptable as a whole. But on certain points, it was held by many senators to be the first suggestion of a middle-of-the-road course between drastic reservations, amounting to amendment, and unqualified acceptance of the treaty.

President Wilson knew of William Howard Taft's letters to senators and to Will Hays, chairman of the republican national committee, a week ago, it was stated at the White House today.

Further than this no comment was forthcoming on the publication of the letters which in some quarters are regarded as a possible basis for a compromise on the peace treaty and covenant.

President Wilson scheduled no appointments with republican senators today. It was said he wished to rest because of his recent illness.

CONSIDER THIS WOMAN'S CASE

Mrs. A. L. DeVine of Los Angeles, Cal., says: "After I had suffered from a female trouble for years, not being able to do my housework, or get any relief from doctors, Lydia E. Pinkham's Vegetable Compound made me a well woman, and I want to tell the world the good this medicine does." This woman is perfectly justified, and should be commended for telling others how she regained her health.

FREIGHT RATES

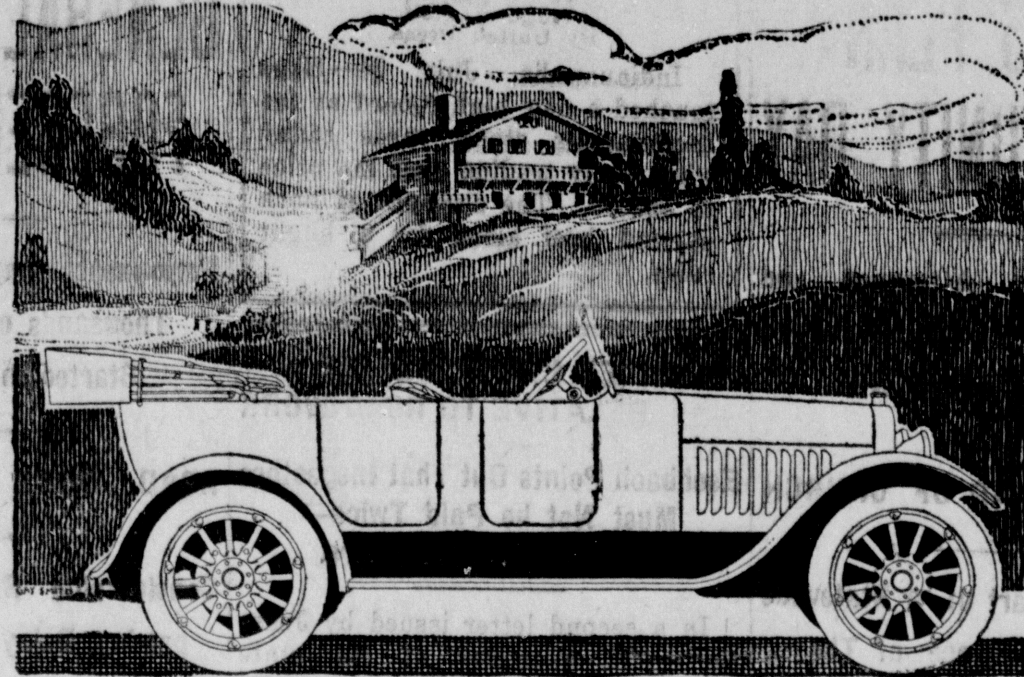

At a hearing which was conducted Tuesday afternoon before Mr. B. H. Meyer, an interstate commerce commissioner, on a petition filed by the Indiana public service commission asking for a readjustment of freight rates, many witnesses testified that the present rates are discriminatory against Indiana manufacturers, shippers and consumers. The rates between Indiana cities and Illinois points are especially unjust, compared to the transportation charges from Chicago to the same Illinois cities. The Indiana commission gave in evidence a number of concrete instances of discriminatory rates in proof of its contention.

The public frequently overlooks the importance of freight rate discrimination. The consumer is too prone to look upon the matter as one that affects only manufacturer, wholesaler or retailer, but freight rates are an important element that goes into the final cost of any article when purchased by the consumer. Evidence was presented at the hearing to show that in some Indiana localities consumers are paying rates which virtually amount to a tax, while the same charges were not necessary in Illinois. Another vital point to be considered is that if retailers in Illinois can purchase supplies from Chicago at a lower rate than they can in Indiana, the concerns in this state will suffer a loss of business.

Before very long the railroads will likely pass back into the hands of the former owners. But it is confidently expected that private management will never be conducted as loosely as it was before 1917. The public will welcome private control of the transportation lines, but will insist upon a more far reaching federal supervision. One main trouble with railroad supervision in the past has been that there was too much conflict between the state commissions and the federal regulatory board.

PROSPERITY AHEAD

There is no question but that Seymour is closely approaching an unusual period of prosperity. Whenever there is a large amount of permanent improvement work in progress the locality in which it is made is directly benefited. Conditions are prosperous in this city

A HOT SPOT Chalmers Lures You

PICTURE in your mind the things that you would have liked to own—that piece of rare jewelry, that very fetching motor boat—possibly an airplane—that delightful old house on the hill.

Money would have meant little could you have procured them.

Here's one more—and quite possibly you've never "discovered" it. Most good things, you know, you've got to "discover."

Its looks may charm you, its specifications may attract, its comforting economy you may enjoy, but there's one thing about it that'll lure you—charm you—delight you beyond words.

That is the engine. Not so much by what it is, because so many look alike. But by what it does, what it gives.

It "pulverizes" gas before the spark plugs touch off the fuel and you have a throbless, jarless, silky sort of action from underneath the bonnet.

It gives you the feeling of fineness, without the excessiveness of power, although you can punctuate the speedometer dial with speed probably as quick as in any car built today, and make a hill country look like a plain—if you want. But you don't have to use it, and when you do it isn't like giving a banquet. Remember this about a Hot Spot Chalmers.

now, but they are of the sound, steady character which are the result of collective individual efforts.

Two road contracts have already been awarded in this immediate vicinity and a third will be let in the near future. All of the improvements will furnish labor for local people and undoubtedly additional men from other places will be required to complete the work by the specified dates. Work of this character pays good wages which mean trade and business in general will be affected.

Much building and repair work on local property which has been delayed on account of war time conditions is being started this year. Contractors and builders are busy with work already awarded. All of the improvements in progress and to be made this year will be of direct benefit to the city and the citizens not only because of their permanent value, but also because of the additional money that they will place in circulation.

Toppy red bags, tidy
red tins, handsome pound
and half-pound tin humi-
dors—and—that classy,
practical pound crystal
glass humidifier with
sponge moistener top that
keeps the tobacco in such
perfect condition.

PUT a pipe in your face that's filled cheerily brimful of Prince Albert, if you're on the trail of smoke peace! For, P. A. will sing you a song of tobacco joy that will make you wish your life job was to see how much of the national joy smoke you could get away with every twenty-four hours!

You can "carry on" with Prince Albert through thick and thin. You'll be after laying down a smoke barrage that'll make the boys think of the old front line in France!

P. A. never tires your taste because it has the quality! And, let it slip into your think-tank that P. A. is made by our exclusive patented process that cuts out bite and parch—assurance that you can hit smoke-record-high-spots seven days out of every week without any comeback but real smoke joy!

INDIGESTION

Caused by
Acid-Stomach

Millions of people—in fact about 9 out of 10—suffer more or less from indigestion, acute or chronic. Nearly every case is caused by Acid-Stomach. There are other stomach disorders which also are sure signs of Acid-Stomach—belching, heartburn, bloating after eating, food poisoning, sour, gassy stomach. There are many ailments which, while they do not cause much distress in the stomach itself, are, nevertheless, traceable to an acid stomach. Among these are nervousness, biliousness, cirrhosis of the liver, rheumatism, impoverished blood, weakness, insomnia, melancholia and a long train of physical and mental miseries that keep the victims in miserable health year after year. The right thing to do is to attack these ailments at their source—get rid of the acid-stomach. A wonderful modern remedy called EATONIC now makes it easy to do this. One of hundreds of thousands of grateful users of EATONIC writes: "I have been troubled with intestinal indigestion for about nine years and have spent quite a sum for medicine, but without relief. After using EATONIC for a few days the gas and pains in my bowels disappeared. EATONIC is just the remedy I needed." We have thousands of letters telling of these marvelous benefits. Try EATONIC and you, too, will be just as enthusiastic in its praise. Your druggist has EATONIC. Get a big 50c box from him today. He will refund your money if you are not satisfied.

Don't Sell Your Bonds to pay bills

YOUR government issued those bonds to you not only that you might patriotically do your part in the country's aid, but that you might also be a part of the government's program to encourage thrift. Do not succumb to the lure of the shark who seeks to profit through your patriotism by discounting your bonds. He had the opportunity to buy as many as he wanted but he preferred to let you carry the burden and then profit through you.

If you need money for temporary expenses, come to us. Your bonds backed by Uncle Sam are good enough for us without our charging you a penalty on your patriotism. We'll loan you the money, hold your bonds for you as collateral, credit your dividends as they accrue and you own your bonds whenever it's convenient for you to pay off the loan.

That's the sort of a bank this is. A bank of service to the people—a bank protecting their interest and promoting their prosperity.

Before the first Brunswick Tire was ever built, we analyzed and tested over 200 tires.

Since 1845 the name of Brunswick has stood for superlative values and fair-dealing.

Tires Differ As Policies Differ

Some Remarkable Facts About Brunswicks

THERE is nothing to prevent any maker from producing a super-tire. All formulas, all methods are well known in the industry. A perfect tire is simply a question of care and skill and cost. These facts can be verified by testing 200 types of high-grade tires and analyzing their materials and construction—as the Brunswick laboratories have done.

In a super-tire, such as The Brunswick, there can be nothing exclusive. Because such a tire must be a composite of all that is best. No one feature must overshadow others.

In Brunswick Tires, for instance, we have included that familiar formula, long in use, which makes the best tire tread that's known.

And there's a certain type of fabric, which, by test, is stronger than all others. Naturally it is in The Brunswick.

To attain the utmost in tire mileage there are certain reinforcements—certain extras. We have adopted all.

To combat the commonest tire troubles, we have adopted the approved side-wall construction, long tested.

In other words, The Brunswick brings you a combination of supremacies, such as were never possible before.

In attaining a tire worthy of the name of Brunswick we were convinced that it depended chiefly on policies and standards, on prejudices and knowledge. Brunswick Standards are known the world around. For 74 years the House of Brunswick has worked in rubber—long before automobiles were known.

Every Brunswick product has attained and held supremacy. The name always insures superlative values. To build a mediocre tire would be unthinkable for such a concern, jealous of its long-standing reputation.

TIRES

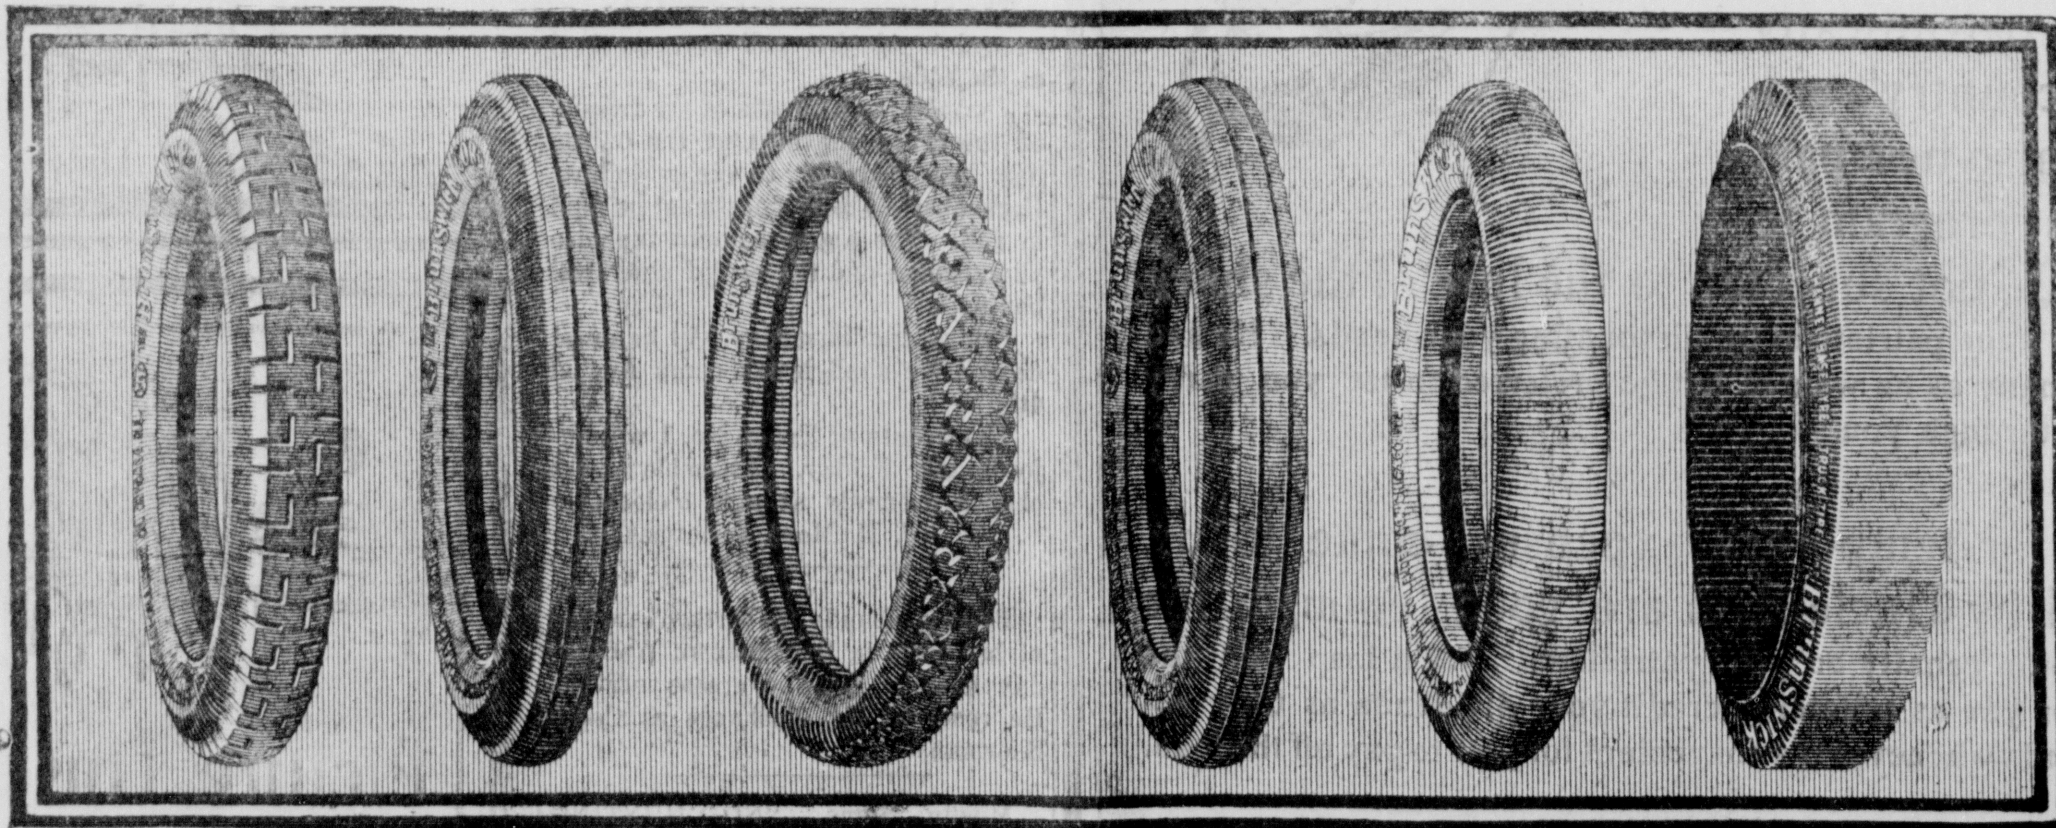

AND TUBES

*There's a Brunswick Tire for Every Car
Cord—Fabric—Solid Truck*

The Brunswick idea is to give all that is possible, all that anyone can give—all that any factory cost can buy.

The result is a tire that is winning friends the nation over. In The Brunswick motorists expect the utmost—and get it. Never has a tire had greater appeal to the man who appreciates real merit.

Try ONE Brunswick. See if you agree with others that here is more for your money. One Brunswick, we are certain, will convince you that you'll never be satisfied until you have ALL Brunswicks.

PESKY BED BUGS

A MILLION BEDBUGS. Just think, a 35c package of the new golden chemical P.D.Q. (Pest Devils' Quietude) is enough to make a quart and enough to kill a million bedbugs, no matter how large they may be or where they come from, their age, color or sex, and at the same leaves a coating on their eggs and prevents hatching.

go farther than a barrel of old-fashioned bug killer. Don't let anybody impose upon your intelligence by offering you something else. Insist on what you ask for, then you'll have what doctors prescribe.

KILLS FLEAS ON DOGS. It's fun to see the fleas drop off your pet dog.

KILLS CHICKEN LICE. No use for your chickens to have lice. A 35c package mixed makes a gallon of chicken lice killer.

Your druggist has it, or can get it for you.

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands, Strong, Vigorous, Keen-Minded, Men and Women

It has been said of Americans that they work their habits overtime.

Many become nervous and inefficient by overwork. By worry, despondency, social affairs, robbing brain and body of needed rest; excessive use of tobacco, indulgence in strong alcoholic drink—excesses of every kind that burn up the vital powers so necessary in these trying times to make both men and women fit to be of help to themselves and others.

It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition, the endurance and the keen mind of those who avoid excesses.

Timidity, despondency, fear, trembling hands, want of confidence and even cowardliness, are due in a large measure to abused nerves.

People with plenty of red blood corpuscles and strong, healthy nerves have no desire to shirk work and lean on others for guidance and support.

There is hardly a nerve-shattered man or woman (unless of an organic disease) in America today who cannot become alert and clear in mind; vigorous and energetic in body in a very few weeks and at trifling cost.

To become strong and ambitious, to feel that work is not drudgery; to have steady nerves, abundance of red blood and power of endurance; to be not only a man but as men now go, a superman, you must take seven tablets of Bio-feren every day for seven days—and take them faithfully.

Take two after each meal and one at bedtime and after seven days take one only after meal until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before; if you do not feel ambitious, more vigorous and keen-minded, the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them.

Bio-feren is without doubt the grandest remedy for nervous, rundown, weak, anaemic men and women ever offered direct through druggists and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.
